

**CLASS 1**

# Building Product Information Sheet

Product name:

K- Valve

Product line *(the product line from which the product is customised)*:

K- Valve Standard, K -Valve Expansion

Product description and its intended use *(measurements, materials, usage)*:

K-Valve is available in 100mm only and is a safe and highly efficient testing and inspection device, strategically designed to streamline testing sewer and storm water systems used in all residential, commercial, and industrial environments.  
Manufactured to AS/NZS 1260  
Further information refer to [www.mmbrands.co.nz](http://www.mmbrands.co.nz)

Product identifier *(if applicable)*:

K-Valve Standard – 913712; K-Valve Expansion – 913713; Test Plug - 913714

Place of manufacture:  Aotearoa New Zealand  Overseas

Legal and trading name of the manufacturer(s):

K-Valve Systems Pty Ltd

Legal and trading name of the importer *(if applicable)*:

MM Brands Ltd

Address for service:

STREET NAME 263 Ti Rakau Drive

SUBURB Burswood

CITY, COUNTRY Auckland NZ

POSTCODE 2013

Website:

Email address:

[sales@mmbrands.co.nz](mailto:sales@mmbrands.co.nz)Phone No. *(if applicable)*:

09 2740111

NZBN *(if applicable)*:

9429040718897

Relevant Building Code clauses:

Durability B2.3.1(a)  
 Hazardous Building Materials F2.3.1  
 Foul Water Drainage G13/AS2 6.1

Statement on how the building product is expected to contribute to compliance:

**Durability B2.3.1(a)**  
 The K-Valve meets the 50 year performance requirement.

**Hazardous Building Materials F2.3.1**  
 The K-Valve does not give rise to harmful concentrations at the surface of the material where the material is exposed, or in the atmosphere of any space as per requirement F2.3.1

**Foul Water Drainage G13/AS2 6.1**  
 The K-Valve is a safe and highly efficient testing and inspection device, strategically designed to streamline testing sewer and storm water systems as per requirement G13/AS2 6.1

- options for compliance set out in section 19 of the Act (regulations, acceptable solution, verification method)
- standard or technical document that describes the performance of the building product or the relevant specifications to which the building product was manufactured
- physical properties of the building product
- how the building product is intended to be used.

Limitations on the use of the building product:

As defined in the scope of the installation standards G13/AS2 and AS/NZS 2032  
Guidance of application limitations is also available at: [www.mmbrands.com](http://www.mmbrands.com)

Design requirements that would support the use of the building product:

Durability and Proven Performance.  
As defined in the scope of the installation standards G13/AS2 and AS/NZS 2032  
Guidance of design requirements is also available at: [www.mmbrands.com](http://www.mmbrands.com)

Installation requirements:

Installation shall be performed by licensed and competent installers.

Maintenance requirements:

The K-Valve requires no ongoing maintenance post commissioning.

Is the building product/building product line subject to warning or ban under section 26?: No

If yes, description of the warning or ban under section 26:

Date: 11 December 2023
